

# Middle Valley Soccer Academy Fee Structure (2015-2016)

To participate in our programs, players must use our online registration system at <a href="www.mvsacademy.com">www.mvsacademy.com</a> to register prior to the beginning of each season, select the programs they wish to participate in, and arrange for payment of applicable club fees. For your convenience, club fees can be paid online by debit card or credit card.

The overall MVSA structure consists of these programs:

| AGE RANGE  | PROGRAM                      | PROGRAM DESCRIPTION  |
|------------|------------------------------|--|
| U4-U8      | DEVELOPMENTAL                | All players in this age range are assigned to this program structure by default. It is fundamentally designed to provide players with a quality learning environment and systematically prepare them for future stages. The Developmental program consists of a mixture of both beginners and experienced players; however, all players have access to the same developmental training opportunities.  |
| U6-U12     | CHALLENGE<br>(supplemental)  | This supplemental program is designed to provide U6-U12 players with more challenging instruction and additional training opportunities. Challenge sessions will be offered once per week (on average) during the season. All training will be led by Select coaches and other licensed instructors. There is no addition cost for Challenge program training.   |
| U6-U8      | IDENTIFICATION<br>(optional) | This optional program would be best described as a "select prep" program for players interested in playing Select beginning their U9 year. It is available to U6-U8 players through a partnership agreement with the Chattanooga Football Club Academy (CFCA). These players are guaranteed instruction from licensed coaches during training and games. For more information on this program (including participation costs), go to <a href="https://www.chattanoogasoccer.com">www.chattanoogasoccer.com</a> |
| U9 & older | SELECT                       | Beginning the U9 year, players will have the option of participating in either the Recreational or Select programs. Players may enter into Select program by invitation only. This means that players are "selected" by the Director, or earn a spot during open evaluation sessions. These players are guaranteed instructing from licensed coaches during training and games.  |
| U9 & older | RECREATIONAL                 | Beginning the U9 year, players not participating in Select are welcome to participate in Recreational soccer. This is a more traditional program with parent-volunteers providing instruction to players using standard curriculum and other training tools. Challenge training and other supplemental instruction will be offered and available to help meet developmental needs.   |

## **Age Chart Based on Birth Year**

(fall 2015 and spring 2016 seasons)

US Youth Soccer and Middle Valley Soccer use a standard age chart when determining the age of player to help ensure fair and competitive play. In the Academy, players are grouped primarily based on the player's age, although skill level can also be a deciding factor. To participate, your player needs to be under (abbreviated by "U") the required age on July 31st of that year.

Use the chart below to find the month and year of your child's birth, and use that to identify what programs are available for your player. Contact mvsacademy@gmail.com if you have any questions.
